DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on December 19, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 5,857,189 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-3, 13-14, 17 are allowed.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 4-6, 15-16 and 18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Each claim does not fall within a statutory category of invention. Each claim is directed to the instructions not an operation (i.e. a process) occurring as a result of executing the instructions, a processor programmed to perform operations in accordance with the instructions nor a manufacture structurally and functionally interconnected with the instructions in a manner which enables the instructions to act as computer and realize its functionality. Each claim is clearly not directed to a

composition of matter. Therefore, each claim is non-statutory under 35 § U.S.C. 101.
